

**SHORT AND LONG TERM  
REFRIGERATION  
RENTAL**

# COUNT ON POLAR LEASING FOR YOUR REFRIGERATION RENTAL NEEDS

## WORRY FREE RENTAL EASY AS 1 - 2 - 3!

### 1 - PLANNING

The answer to all of your refrigeration needs is only a phone call away. With a reservation or even in an emergency, Polar Leasing provides several rental options to serve your specific need.

### 2 - DELIVERY

Deliveries are made around your schedule using top quality equipment and experienced drivers. Polar Leasing utilizes both our own truck fleet, as well as a limited number of partner carriers around the country.

Every Polar Leasing unit is delivered pre-assembled, pre-wired, and ready to operate. No refrigeration work is required on-site! Bring power to the walk-in and it's ready to go!

### 3 - PICK-UP

The rental process is just as easy at the conclusion of your event. Polar Leasing will be there to pick the unit up at a time that best fits your schedule.

## WORRY FREE OPERATION

Polar Leasing walk-in refrigerators and freezers are built to withstand any situation. Whether for light duty or heavy volume, extreme weather conditions either hot or cold, every unit will perform to the highest standards. All Polar Leasing units are tested and inspected prior to delivery at your location.

## NO FRUSTRATIONS

Our quiet electric powered units mean there are no fuel bills, diesel engine noise or dangerous fumes. Plus, Polar Leasing units are placed at ground level, which means you don't have to climb into the back of a truck. You can also set the unit anywhere including grass, gravel, or relatively uneven surfaces.

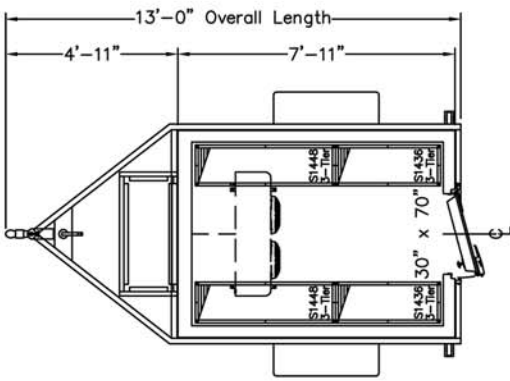

## REFRIGERATION ON THE GO

Polar Leasing transportable refrigerators and freezers are the practical solution for operators requiring refrigeration on the go, or in varying locations. Our units are designed for food storage in any location, allowing you to take your business virtually anywhere.
